SPERM ANALYSIS TEST

Name: _____

Date of Birth: _____ Date and Time of Collection: _____

INSTRUCTIONS:

You can produce the sperm sample at our office
or bring the sperm sample in a sterile container within an hour of collection.

Avoid intercourse or masturbation for 3 days.

Collect the entire semen sample into a sterile specimen cup

Wash and dry your hands and lower body

Ejaculate directly into container - close lid tightly.

Keep the semen sample at body temperature.

We advise putting the container inside your pants' pocket.

Avoid the use of lubricant, saliva or condom.

GETTING YOUR RESULTS:

All patients for Sperm Analysis Testing are seen by Dr. Vincent Brandeis personally.

Dr Brandeis will discuss the results of your sperm test during your visit.

The Sperm Analysis Report is available the same day

except for morphology (shape of the sperm cells) – usually completed in the next two days.

We provide you and your physician with copies of the Sperm Analysis Report by fax or email.

Dr Brandeis is available to discuss your results further and order additional testing
such as hormone studies or scrotal ultrasound.

You can schedule the date and time during your visit or after.
